### ASSEMBLY CONVENTION.

SECOND DISTRICT.

A Republican Convention of the Second Assembly District, in the county of Rock, composed of the city of Janesville, and the towns of Janesville and Rock, is hereby called to meet at the Common Council room, in the city of Janesville on Friday , the 9th day of August, 1878, at 7 o'clock p. m., for the purpose of appointing two delegates to represent said district, in the Convention to be held at Elkhorn, on the 13th day of August, 1878, to nominate a candidate for member of Congress, and transact such other business as may properly come before the Convention. The wards and towns comprising said Assembly District, are entitled to the same representation as in the last Assembly Convention as follows: First ward, City of Janesville.

Second ward. Third ward, Fourth ward, Fifth ward, Town of Janesville. Town of Rock. A. A. JACKSON.

> W. T. VANKIRK, A. H. BAXTER, A. H. SHELDON. H. C. MILES, S. E. OTIS, becond Assembly District Committee.

NOT PRONOUNCED IN ADVANCE. The Janesville Gazette approves the decision of the Commissioners not to award the prize of \$10,000 to the Oshkosh Steam Wagon. The judgment of the Gazette was pronounced in advance of the trial, and it is perhaps necessary that it should be consistent.—Oshkosh Northwestern.

The Northwestern is quite mistaken in saying that the Gazette pronounced judgment in advance of the trial. We said not a word about it until the trial of the "Oshkosh" had been completed. We were aware of the fact that in no country where steam wagons have been tried have they been regarded practical—that is, a substitute for horses or other animals on the farm. But knowing that Oshkosh is a remarkable place, we could not tell what might bring forth even the shape of a wagon, and therefore suspended judgment until after we had seen the machine work. and the trial was virtually completed There is not one farmer in ten thousand, after seeing the machine put to a test, who would decide that the "Oshkosh" wagon was "a cheap and practical substitute for horses or other animals on the highway or the farm." The cost of such a machine, the great expense required to operate it, the fact that it would not be managed except by a person of more or less skill as an engineer, the great hability of accidents, and the impossibility of running it over all sorts of roads in all seasons of the year, through snow as well as mud, preclude it from being "a cheap and practical substitute for horses or other animals on the highway or the farm." This is not only our judgment, but it happens to be the judgment of the best mechanics, and the largest and most successful farmers in Europe and America.

## THE WORK OF THE PARTY.

It is not improbable that the Republicans of Wisconsin will be compelled in a large measure to fight the combined influence of the Democrats and the Greenbackers. Where it is possible, the Democracy will make the best terms they can with the Butler-Kearney-Cary-Pomeroy tribe, and surrender, and will suffer themselves to be swallowed after the fashion at Madison last winter. The Democracy, as a rule, are perfectly unconcerned about redeemable or irredeemable paper, inflation, repudlation, or any other question pertaining to finances. They haven't got any fixed opinion on any subject of national importance, except, probably, the payment of the several hundred millions of rebel claims. A majority of the party in Congress would like to see there little claim bills paid, because it would give the party such a hold on the affections of the people of the South. Aside from this, they stand on financial matters pretty much as Douglas did on the slavery question, not caring whether it was yoted up or down. They propose to conduct the campaign this fall on the principle of "anything to beat Grant," and where a bargain can be made with the Greenbackers it will be made for the purpose, it possible, of defeating the Republicans. In three or four of the Congressional Districts this coalition will be effected. especially in the Districts where the Democrats have little hope of success. This being the case, the entire strength of the Republican party in the state must be called to do duty. Every man must be on guard. The issues at stake were never more important than now. Between Greenbackism and Communism on the one hand, and a willing Democracy in the hands of the bold and reckless Southern leaders on the other, there is no little cause for alarm. To maintain the government on an economical basis, to prevent a destruction of all business interests, to save Congress from falling into the hands of schemers, raid on the National treasury, and to crush the attempt to flood the country with a currency that would inevitably bring about the absolute degradation of the workingmen and the downfall of our industries, we must place Congress in the hands of the only party which tayors good money for the people, and to

Through every stage of the conflict between loyalty and treason, between right and wrong, between oppression and the broadest liberty, between a sound currency and an evil one, the Republican party has unitedly stood on the right side. It can not withdraw from the contest in 1878. So long as rights of citizenship are called in the question, so long as there is a free ballot to be secured and defended, so long as the government treasury needs a guardian, and so long as there shall be an attempt to impose on the people a worthless paper money, just so long will there be work for the of Wisconsin must bear these things lative Committees.

solemnly in mind, and in the campaign of 1878 must work harmoniously and vigorously for the success of Republicanism.

### SENATOR HINER'S FAILURE.

Business and politics seldom make good bedfellows. They can't march hand in hand with any degree of certainty that each will come out whole. The recent and bitter experience of Hon. W. H. Hiner, of Fond du Lac, is not an infrequent occurrence. For several years he had been carrying on the business of an ironfounder, and had been quite successful. He had erected an elegant residence, had gathered about him a great many of the luxuries of life, had acquired quite a wide reputation as a business and also had in the mean time gained some political standing. He had been in the State Senate six years, had naturally become politically ambitious, and therefore spent more time and money in politics than was judicious. During this time his business interests were on the down-hill grade, and a dispatch from Fond du Lac tells the whole story-"if he had not been in politics he would doubtless have saved the bulk of his fortune at least." This does not mean that business men should not go to the Legislature nor be sent to Congress if they can get there, but it does mean that it does not pay to sacrifice busi ness for politics. All men should be, in a certain sense, politicians, but politics should be subordinate to business. Men who follow this rule generally make the best Letislators.

The latest report says the defalcation of the Grand Masonic Lodge fund is \$9,000. and not \$13,000 as published a few days ago. The loss of this amount occurred more than a year ago, but the fact was guarded with Masonic fidelity, and consequently it was not publicly known until quite recently. The defalcation of the Grand Treasurer will probably prove

valuable lesson to Grand Lodge. The bondsmen of Mr. Hiner are Gabe Bouck, of Oshkosh, John Spence, John Barrows, Fred Kalk, of Mr. Bouck will probably be compelled to pay the entire amount, as the other bonds men are not responsible. It is reported that the fact of the Masonic defalcation would not have been made public, "but for the mysterious transfers of property made by some of his bondsmen, and the efforts of others to save themselves from loss." Mr. Bouck says he is determined to pay the whole amount rather than let the Grand Lodge lose a cent. This circumstance should remind the Grand Lodge that none but men of unimpeachable integrity, and of substantial property, should be accepted as bondsmen for the Grand Treasurer. Heretofore it has been "torm," hereafter it should be regarded as a sober reality.

The La Crosse Democrat is no more; its name killed it. The editors of the Chronicle, for that is the new name of the paper, say the name was changed for the reason that the word "Democrat," "as associated with an old La Crosse newspaper, savors of disloyalty and political prostitution of many varieties, and has a notoriety which was bound to cling, somewhat, to the skirts of any paper that continued the use of the word." The new paper will not be "wholly Democratic." It will be independent of all parties. It is proper to remark here that these local "independent" papers are the least independent of all journals. They have no political home, try to please everybody for policy sake, and succeed admirably in pleasing nobody. This is generally the character of the newspaper which pro fesses to have no politics. They try to geton all sides of every question, and get on the right side of none, and hence have a negative influence. The Chronicle, however, says it believes in an honest currency, and can not in any wise support the wild Greenback doctrine. This alone will cover up a multitude of deficiencies.

We are surprised to see three newspapers of as great reputation as the Milwankee Sentinel, the Oshkosh Northwestern and the Janesville Gazette, papers which are supposed to be read far beyond the borders of our State, representing that our state authorities are allowing a fraud to be practiced upon the people, in permitting a bird to be exhibited as the famous war eagle "Old Abe," when that eagle has long since died. Such an act would bring great disgrace upon the

It so happens that the Janesville Gazette has never, except in this paragraph, printed one word concerning the question as to whether "Old Abe" was dead or alive. We know nothing at all about it, and therefore have taken no part in the rambling

Cor. -Is the rivalry great between competing Republican candidates for the Senstorrhip?

Mr. R .- I do not understand that any special canvass is being made. For one and I think that is the unanimous opinion of the Committee, I believe the question as to a Senatorial candidate should be kept entirely in the back ground until the election of a Republican Legislature is secured. Cor. -- Senator Howe is, of course, a candidate for re-election?

Mr. R .- He is considered so. It is well known I have long been upon terms of personal friendship and intimacy with Judge Howe, and I have my preferenceas to who should be elected to the Senatorship. But I have no personal friendships or desires which will lead me to act with partiality in the conduct of the campalgn. The entire Committee, I believe, feel that way. The subject was talked over at our meeting, and the convictions of all, without exception,-and all had favorite candidates, - were that a Republican Legislature should first be secured before the interests of rival candidates are

the other candidates? Mr. R.-I understand so. Each of the gentlemen whose names are used in connection with the Senatorship express, so far as I am informed, no desire that this personal interest should be advanced in the selection of Legislative candidates. 1 think it would injure any candidate in pack the Legislature.

Cor.-Is there any feeling between the Republican State Committee and the Legislative Campaign Committee, or is there any controversy as to the policy of the two Committees?

Mr. R-I heard nothing about the Legislative Committee until after it was appointed, I think in February last. I was then in Boston, and received a letter from the Chairman of that Committee, Senator Burrows, of the Madison District, informing me that such a committee had been appointed, but with no intention to interfere with the Republican State Committee, but simply to aid in the campaign, especially as a Legislature of unusual importance was to be chosen. I had, and I have, no feeling whatever on the subject of 'he appointment of that Committee. The members of the Committee are all good men, and there was evidently no sinister puroutside the from for the purpose of creating the impression that the present Central Committee needed assistance from its weakness or inefficiency,-I say to create an impression Now that the Hon. them on a compromise platform and can-didate for United States Senator?

Mr. R.-No! I would not be in favor of any compromise. We had better lose the Senatorship than be disgraced. The Republican party could not afford to keep a Senator at that price. If doctrines of inflation, repudiation, or Communism are to be connived at in the election of a Senator, some other organization besides the Republican party ought to do it. Republicans cannot do those things well.

### TENNESSEE.

The Result of the Election in Memphis Yesterday.

Washington, D. C., Aug. 2.-Private dispatches received to-day from Memphis represent the election of yesterday as a triumph of the Independent Democrats aided by Republicans, rather than the success of the National Greenback party, as represented in the regular press report. It has been known here for some time that influences were at work in that section which would probably lead to a yery considerable show of strength on the part of the Independents, but so pronounced a result as that reached yesterday, by which the Independents elected all their candidates in the county in which Memphis is, was not expected at this election. From the tenor of the dispatches received there seems to be excellent reason for belleving that the result yesterday will lead to the nomination and election of an Independent Democrat from the Memphis District to the next House of Representatives.

SANFORD'S RADICAL CURE FOR CATARRE is a safe, certain, and permanent cure for Catarrh of every form, and is the most perfect remedy ever devised, it is purely a vegetable distillation, and is applied locally by insuffiction, and constitutionally by internal administration. Locally applied, relief is instantaneous. It soothes, heals, and cleanses the massal passages of every feeling of heaviness, obstruction, dulness, or dizziness. Constitutionally administered it renovates the blood, purifies it of the acid poison with which it is always charged in Catarrh, stimulates the stomach, liver, and kidneys, perfects digestion, makes new blood, and permits the formation of sound, healthy tissue, and finally obtains complete control over the disease. The remarkable curative powers, when all other remedies utterly fail, of Sanford's Radical Cure, are attested by thousands who gratefully recommend it to fellow-sufferers. No statement is made regarding it that cannot be substantiated by the most respectable and reliable references. It is a great and good medicine, and worthy all confidence. Each package contans a Treatise on Catarrh and Dr. Sanford's Improved Inhaling Tube, and full directions for its use in all cases. Price 11.

An Enthusiastic Friend of Sanford's Radical Cure.

MCHATTON, GRANT & BOWEN'S FIRE AND MARINE INSURANCE AGENCY, 225 Pine Street, St. Louis, Mo., Feb. 7, 1871. A. A. MELLIER, Washington Av., City.—Dead Mellier: I have for some years been troubled with Catarrh, and for the past two years have suffered seriously with it. Noticing your advertisement of Sanfoed's Remedy (Radical Cure), I decided to try it. I have used only two bottles, and as a result I feel so much relieved that I presume on our personal relations and write this to you and ask that you take some measures to get it more prominently before the public, that others may have such relief as I have. I have recommended it to quite a number of my friends, all of whom have expressed to me their high estimate of its value and good effects with them. me their high estimate of its value and good enects with them.

I really think it particularly adapted to wants of St. Louis people, and they all ought to know of it, and those who need it should try it. I will risk the assertion that 1000 1 oz. vials (as a sample) to be given away will sell as many bottles.

Try some plan. Let the people have it; they need it. I believe I could sell 5000 bottles myself—of course you could largely increase this number. Why not try it? Yours truly, WM. BOWEN.

LAME BACK

Sold by all Wholesale and Retail Druggists and Dealers in Medicine throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

Messrs. Weeks & Potter: Gentlemen, — One year ago I was selzed with a severe attack of Rheumatism in my right hip, to which I was subject. Itried the various liniments and rheumatic cures, but without the least benefit, when my son, a druggist, suggested one of your Collins'Voltaic Plasters. The effect was almost immediately well again, and was able to work upon my farm as usual, whereas, before the application of the Plaster, I could do nothing, and every step gave me pain. A few weeks since, one year from the first attack, the disease returned, but I am happy to say the second Plaster proved as efficacious as the first, and I am now well. My wife wishes me to add that one Plaster has cured her of a very lame back. We think there is nothing in the world of remedies that can compare with the Collins' Voltaio Plasters for Rheumatism and Lame Back, and cheerfully recommend them to the suffering. Yours very respectfully. OBLAND, Mr., June 6, 1876. ROBERT COTTON. NOT A QUACK NOSTRUM.

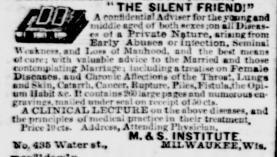

Gentlemen,—I hereby certify that for several years past I have used the Voltage Plasters in my practice, and have never known them to fall in affording speedy relief in those cases for which they are recommended. They are not a quack nostrum, but a remedial agent of great value. Very truly yours,

Bucksport, Me., May 27, 1874.

I have had more trouble from cold spaps in the spring of the year than from the excessive cold spells of mid winter. I have seen it very successfully raised in the mountain districts of our State, and it is growing popular wherever tried. It makes a good growth in the fall and covers the ground very well .- P. J. C., Country Gentleman.

Farm Horses.

There is much discussion among our farmers about which breed of horses, or what sized horses are suitable for farm horses. I am inclined to horses from 1,000 to 1,200 pounds in weight, as being the best size; and I think that a blood stallion bred to a large roomy mare, will give us the most satisfactory stock. Many incline to the Norman horses, and if you want to sell the colts, you will find them as profit— able as any; but I would prefer horses with less beef on their legs. I have seen two teams this spring, each having a beefy horse and a trimbuilt one, and in each case the beefy-legged horse had the scratches badly, while his mate was free from the ailment. That these beefy horses will keep in good order on less feed than a high strung, active horse, I am quite willmuch work when well fed, I doubt; and I am certain that, in an emergency, one actis almost no limit to what an active, ambitious team can pull for a short distance, have seen a big team tired out, plowing, when a small, active team had done more work and telt fresh at the end, in plowing a fallow where the ground was soft .-Colonel J. D. Curtis in Rural New Yorker.

Value of Fast-Growing Timber.

It is worth noting on how slender four. dation generally accepted theories often stand, and it ought to be a lesson not to take all preaching for sound doctrine. We century ago, the belief was that rapid Poeple saw that the hickory and oak grew slow, and that the willow and poplar, which grew fast, were only fit for the paper mill. But now we find that the ailanthus, catalpa, Osage orange, mulberry and the faster growing kinds of oaks, the bluegum, and other fast growing things, are among the best timber trees in the world. It was the old notion that hard timber grew slow that created such a ghost in the

facts for American people. - Gardner's The people of the United States have had to pay for the printing of a book of some 650 pages on torestry, with more, it is said, to come. As a work of reference for college and public libraries, and for the student in forestry, the compilation is good, as the Prairie Farmer has heretofore stated. But if this is to be supplemented by a trip to Europe to give some theoretical savant a chance to see how trees are grown there, our ornamental and theoretical commissioner of agriculture, than in sending an ornamental commissioner to Europe to learn the art of tree planting. What the people of the great tree districts want to know is in relation to varieties adapted to the climate. The cultivation is an easy matter. Neither of these can be learned by European systems. Besides, all they know is easily found through current literature, and the agricultural press may be safely trusted to sift this out.

MR HR STEVENS: a small sore came on my leg; it soon became a large Ulcer, so troublesome that I consulted the doctor, but I got no relief, growing worse from day to day. I suffered terribiy; I could not rest day or night; I was so reduced my friends thought I would never recover. I consulted a doctor at Columbus. I followed his advice; it did no good. I can truly say I was discouraged. At this time I was looking over my newspaper; I saw your advertisement of Vegetine, the "Great Blood Purifier" for cleansing the blood from all impurities, curing Rumors, Ulcers, &c. I said to my family, I will try some of the Veretine; Before I had used the first bottle I began to feel better. I made up my mind I had got the right medicine at last. I could now sleep well nights. To-day, however, Warrants were served on William Fisher, Romaine Holdredge, Frank Sobye and James Bristol, and they appeared before Justice Prichard, and pleaded "not guilty." Their cases were adjourned until Monday next at 10 o'clock a. m , the accused furnishing \$100 bail each for their appearance at that time. The young men occupy good positions here, and are of families which stand high in this community. I will be gratifying to their many friends it they are able to establish their innocency.

The Water Works Committee Take Further Action and Adjourn to Meet Again.

The Citizens' Committee on Water Works met last evening for further discus-

The resignation of Mr. Andrew Palmer was received, read and accepted and Mr. Eldred was choson to fill the vacancy.

It is understood that Mr. Palmer's reason for resigning is that his health would not permit of his being in attendance at prolonged evening sessions.

There were present last evening F. S. Eldred, J. Sutherland, A. Rogers, O. B. Ford, Hiram Merrill, J. W. Nash, and H.

The following resolution was offered and Resolved, that we deem the water supply

from the artesian well at the fair grounds entirely inadequate for the purposes of water-works for the city. A communication was received from H

M. Mitchell, of Vergennes, Vermont, inquiring what the city was doing in the do you hear me calling?" in which she matter of water-works, and the Secretary was instructed to reply. A communication was also received from

Mr. James Mills, a hydraulic engineer in the East, which was forwarded to the Committee by Dr. R. B. Treat, of Chicago. Mr. Mills' letter was a lengthy one, and he sought to show that greater care should be taken in the matter of obtaining proper machinery than in any lother feature of the work. He also stated that he would like to look over the ground, if a contract audience evidently appreciated him, and was to be given, as be was in shape for en- expressed their satisfaction enthusiastical-

by Mr. Rogers:

Resolved. That we recommend that the Common Council contract with any reliable company, if it can be done, for the construction of water works, the city to pay the company not to exceed \$50 a year per hydrant for 150 hydrants, the city to have the right to use water necessary for sprinkling streets, and water for fountains in the public parks, not to exceed four in number.

The resolution passed and adjournment was then taken fantil next Monday

The Milwaukee News of July 20 says of this great show while exhibiting here:

"The throngs of people who attended the circus on the Second ward grounds yesterday afternoon and evening, found it, unlike most traveling performances, fully equal to the description of it in the newspapers and on the fence boards. Adam Forepaugh is favorably known and deservedly popular in this community as a man who keeps faith with the public. His shows are always up to the times, and characterized by the latest novelties in all departments. 'Better than ever,' and nothing like it,' are expressions which the spectator uses to convey his satisfaction. Forepaugh's shows, also, are always splendidly managed. The bewildering variety of attractions, as well as the vast audience, are arranged and ordered with the least possible friction, so that every one is comfortable and free from care without exact-

ly perceiving why. "This show has several entirely new features, among which is the hippopotamus-a real living fat and sleek fellow This singular quadruped is a native of Central Africa, is possessed of an enormous appetite, having a stomach capable of contalking from six to eight bushels of nutriment. Herodotus (B. C. 400) says: 'The hippopotami are held sacred in the name of Papremis.' The wonderful seven elephants, embracing the comic, acting and educated elephants, among which are the largest and smallest species owned in America-these almost human brutes-are a marvel in their way, and peform the wonderful pyramid as represented on the bills. In fact Forepaugh's great show is now conceded the leading and legitimate show of the American continent. His menagerie is the largest and most complete one that has ever visited Milwaukee. The circus department is composed of the very best performers in their various lines of specialties. We heartily commend the great Forepaugh to the public and wish him success in his great undertaking."

### LAST EVENING'S CONCERT.

Last evening at the testimonial concert given to Mr. Ben. H. Grove, at Court Street church, there was a fine audience both in numbers and make-up. The programme was a varied one, and its execution was decidedly enjoyable throughout. Great interest was manifested in the audience as to Mr. Grove, and when he appeared, he was greeted kindly by cheers. His base solo showed that his voice had been greatly improved by his course of training in Chicago, and he handled well, holding it especially finely on the lower notes. His articulation was poor and should receive special attention at his hands. He was heartily encored, and responded in another happy effort.

Miss Emma Baker, one of Chicago's favorite contraltos, was likewise a favorite last evening, and her appearance called forth a hearty applause. She sing that sweet song of "The Rose Bush," rendering it finely. Her expression was indeed wonderful, and her articulation such that all understood what she was singing about. Prot. Bischoff gave an organ solo which was literally grand. He handled the keys, stops, and pedals, as though he had been familiar with them for years, and brought out the full force of the instrument. After listening to such an effort as his last evening, no one can wonder that he has gained such a wide-spread reputation for his musical genius. The

A chorus also added to the enjoyability of the occasion, and appeared twice on the programme. The participants were, Mrs. St. John, Mrs. Conrad, Mrs. Wingste, Mrs. Moseley, and Messrs. Bladen, D. D. Milestones on the Road to Health. The recovery of digestion and the resumption of activity by the liver, bowels and kidneys are milestones which mark our progress on the road to health. They speedily become perceptible when Hostetter's Stomach Bitters is used by the invalid. Nothing so surely and expeditionsly consumes the distance to the desired goal. As no bodily function can suffer interruption without impairing the general health of the system, so the system can never acquire perfect vigor, health, synonym, until that function be actively resumed. Take, for instance, digestion, a suspension of which is invariably rectified by the

leadership of Mr. D. D. Bennett, there will dren, each having a department full of grow weak, biliousness, constipation, headache, oms supervene, which indicate unmistakably the baneful general influence of dyspepsia. The disappearance of all these symptoms through the use of the Bitters shows with what thoroughness it removes their cause. jy30deodw1w
